STOP CATARRH!

It's a Dangerous Disease-Use Hyome -It Acts Quickly and Safely.

If you have catarrh, usually indicated by sniffling, stopped-up head, frequent colds, watery eyes and morning choking, there is an irritated state of the mucous membrane lining the breathing organs which affords an ideal condition for the growth of dis-

ease germs.
It is needless to allow the danger-ous germs which may be taken in with the air you breathe, to reach the irritated mucous membrane, and begin destruction of your general

One of the easiest, simplest and quickest ways to check catarrh and destroy the germs is by breathing Hyomei—the direct-to-the-point methods. No roundabout process like dos-

ing the stomach.

Hyomel is a combination of antiseptic and germicidal oils, which when breathed through the inhaler, mixes with the air and instantly penetrates into the folds and crevices of the membrane lining the nose. of the membrane lining the nose, throat and bronchial tubes. It not only heals, soothes and vitalizes the dissues, but by destroying the dangerous germs helps you to enjoy good health.

Use Hyomei, not only for catarrh, but for cold in the head, bronchitis, croup of infants, or stopped-up head. It's a household remedy.

Druggists everywhere sell it, and tells their customers he will offer to refund the money if they are not benefited. Ask for the Hyomel complete outfit, \$1.00 size.

In the north," the correspondent con-tinues. The submission of certain of the leaders does not necessarily mean a pacific tendency of the revolution in general, as these leaders do not aim at an assumption of power, but only de-mand various material benefits, as in the case of the Indian rebels in More-les and Puebla. The government can convert these rebels into allies against the others, but the insurgent forces of the north, more numerous and amped the north, more numerous and armed and equipped by Americans, constitute the predominant part of the revolution and must be regarded as the arbiters of the situation.
